

Pinnacle Propane

A PDI Case Study

Overview

HQ: Irving, TX since 2010
Industry: Residential and Commercial Propane
Size: 150+ Trucks
PDI Solution(s): PDI TransPac LPG, HyperDocs

Business Challenge

- Efficient solution to handle increasing growth while minimizing manual processes and decreasing paper ticketing
- Flexible mobility solution that could increase delivery and invoicing efficiency by interfacing with their current back-office system

Securely digitized transactions, eliminating manual processes & paper ticketing

Automated and standardized processes for distribution and service to address pressing back-office needs.

Customer Results

Connected drivers with back-office

Provided real-time knowledge of truck inventory

Decreased paperwork with on-site signature and storage

Increased the efficiency of the customer invoicing process

No longer restricted by manual processes, Pinnacle drivers increased their bandwidth, leading to quicker deliveries.
